OEE Performance Report

Line 1 - Machine A

Period start	2026-09-29 01:20:41	Period end	2026-09-29 01:21:03
Ideal cycle time	5 s/part	OEE target	85 %

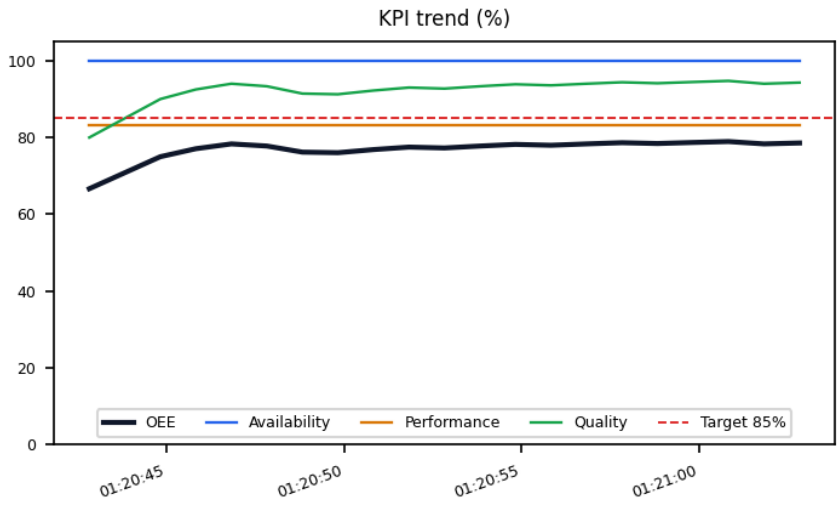
1. Key performance indicators

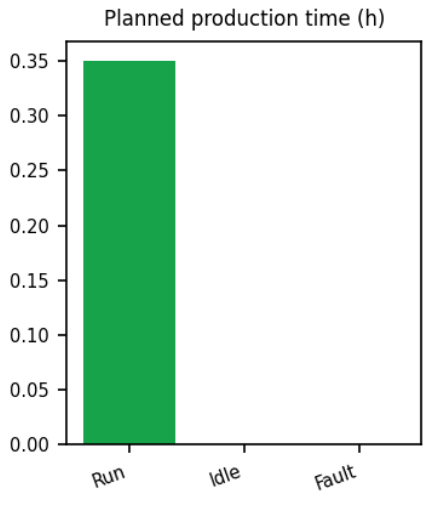
Indicator	Value	Meaning
OEE	**78.6 %**	Availability x Performance x Quality
Availability	**100.0 %**	Run time / planned production time
Performance	**83.3 %**	Ideal cycle time x total count / run time
Quality	**94.3 %**	Good parts / total parts

2. Production and time accounting

Item	Value	% of PPT
Run time	0:21:00	100.0 %
Idle time (starved / blocked / no operator)	0:00:00	0.0 %
Fault time (breakdowns)	0:00:00	0.0 %
Planned stops (excluded from OEE)	0:00:00	excluded
Total parts / good parts / scrap	210 / 198 / 12	
Fault events | MTBF | MTTR	0 | -- | --	h:mm:ss
Speed loss | Quality loss (time)	0:03:30 | 0:01:00	h:mm:ss

3. Trends





4. Alarm history (most recent first)

No alarm events recorded in this period.
